The Township of Berwyn fully endorses the public policy of the State of Illinois that all persons are entitled to full and complete information regarding the affairs of government and the official acts and policies of those who represent them as public officials and public employees. Access by all persons to public records promotes the transparency and accountability of public bodies at all levels of government. 5 ILCS 140/1

The Township of Berwyn recognizes that its desire for the active and informed participation of its citizens in the public policy process necessitates as full and as free access to this information as possible. In determining the parameters of public access to information, the Township of Berwyn also understands its obligation to protect legitimate privacy interests and maintain the efficiency of its administration operations.

Township Government: Berwyn Township was established by the Illinois Legislature in 1922 as one of the few coterminous townships in the state. The Berwyn Public Health District was established at the same time. The Township and Public Health District moved to their present

headquarters at 6600 W. 26th Street in 1939. Built for \$50,000, construction of the building was made possible by federal grants under the Works Progress Administration (WPA). The term of elected officer is four years.

The Berwyn Public Health District provides immunizations free of charge to children that are uninsured or enrolled in Medicaid through the Vaccines For Children Program. Call for additional information and appointments for immunizations.

Berwyn Township 708 Community Mental Health Board: On October 31, 1963, President John F. Kennedy signed into law the Community Mental Health Act, which drastically altered the delivery of mental health services and inspired a new era of optimism in mental healthcare. This law led to the establishment of comprehensive community mental health centers throughout the country. It helped people with mental illnesses, who were “warehoused” in hospitals and institutions, move back into their communities. (www.thenationalcouncil.org)

Through the hard work of local residents and social service agencies in our community the Berwyn Township 708 Community Mental Health Fund was established in 1974 by referendum. A Board of Directors was appointed shortly after. Initially, the 708 Board funded four agencies through local tax dollars. Currently, the 708 Board is funding 11 agencies with 28 programs. All board members are volunteers for a four year term, appointed by the Township Supervisor.

Over the last ten years, the 708 Board has joined memberships with the Association of Community Mental Health Authorities of Illinois (ACMHAI), Illinois Public Health Association, and the Berwyn Development Corporation. The 708 Board engages in mental health continuing education as a best practice by attending seminars and conferences. The 708 Board will continue to establish partnerships with other government agencies and provide programs and services to impart the importance and understanding of behavioral health care to Berwyn residents. The 708 Board believes that a community with good mental health is a safer community.
